*Highland Lakes of Central Texas*

Noted high in the picturesque hills, near the capital city of Texas are six magnificent man-made lakes, with a shoreline longer than that of the Texas Gulf Coast.

The climate is never too hot or too cold for enjoying the many recreation activities. Game and fish abound and the scenery has a special rugged beauty of its own.

Good accommodations are available where the water falls a friendly welcome. Here in the ranch country of the Southwest, it can be truly said that one of America's most beautiful and quiet playgrounds.
